JRH Electronics LLC Launches Expanded Website, Celebrates 20th Anniversary

Marlton, N.J. – JRH Electronics -- a leading distributor of electronic components to the military, defense and aerospace industries -- has launched a new, expanded website offering users easier access to the company's products, services and quality-driven initiatives. Please check back in the future for e-commerce and online ordering capabilities.

The website can be accessed at www.jrhelec.com and JRH's expansive line card can be downloaded [here](#).

Servicing the industry now for 20 years, JRH Electronics is one of the leading Woman Owned Small Businesses in America. It is an AS9100 Rev. B certified Authorized Distributor and a Certified Small Disadvantaged Business (SDB).

JRH Electronics provides **one-stop shopping for connectors, fiber optic components, backshells, adapters, conduit, shrink boots and tubing, switches and sensors and other electronic components.**

JRH Electronics also provides value-added services such as: custom assembly of connectors to military or source control specification, materials management, custom packaging and kitting, bar-coding and RFID, and strategic on-site vendor partnerships.

Incorporated in 1992, JRH Electronics has an unmatched commitment to quality and customer satisfaction, delivering high-quality products on schedule and above expectations. The company's team approach to working with its customers along with its rapid response time has earned it a reputation for service that is unrivaled in its industry. Whether the need is to locate a hard-to-find part needed yesterday, overcome a challenging mission-critical design obstacle, or negotiate a multi-year procurement, there is no requirement that JRH Electronics cannot fulfill.

For any questions about the company and its services, contact Jim Cipriani at jcipriani@jrhelec.com or by calling 856-988-8696.
